

**Amendments to the Claims:**

This listing of claims will replace all prior versions and listings of claims in the application.

**Listing of Claims:**

1. (Currently amended) A method of obtaining a medicinal from honey, the method comprising:
  - a) treating honey thermally at [[100-]]160°C to obtain a solution,
  - b) settling the solution for 22-26 hours,
  - c) mixing the settled solution with adsorbent,
  - d) settling the mixed solution from c) for 10-14 hours, and
  - e) filtering the settled mixed solution from d) to obtain the medicament from honey in liquid form.
2. (Previously presented) The method of claim 1, further comprising:
  - f) mixing the liquid from e) with a pharmaceutically acceptable auxiliary, and
  - g) drying and powdering the mixture from f) to obtain the medicinal in the form of dry powder.
- 3-4. (Canceled)
5. (Previously presented) The method of claim 1, further comprising heating the composition after settling for 22-26 hours and before mixing with adsorbent.
6. (Canceled)
7. (Previously presented) The method of claim 1, wherein, in c), the ratio of adsorbent to settled solution from b) is 7-100.

8. (Previously presented) The method of claim 1, wherein the adsorbent in c) is activated carbon.
9. (Previously presented) The method of claim 1, wherein the filtering is performed twice.
10. (Previously presented) The method of claim 2, wherein, in f), the mass ratio of the liquid from e) and the pharmaceutically acceptable auxiliary is 1:1.
11. (Previously presented) The method of claim 2, wherein, in f), the pharmaceutically acceptable auxiliary is sodium bicarbonate.
- 12-26. (Canceled)
27. (New) A method of obtaining a medicinal from honey, the method comprising:
  - a) treating honey thermally at 140-160°C to obtain a solution,
  - b) settling the solution for 22-26 hours,
  - c) mixing the settled solution with adsorbent,
  - d) settling the mixed solution from c) for 10-14 hours, and
  - e) filtering the settled mixed solution from d) to obtain the medicament from honey in liquid form.
28. (New) The method of claim 27, comprising treating honey thermally at 160°C to obtain a solution.
29. (New) The method of claim 27, comprising treating honey thermally at significantly greater than 100 to 160°C to obtain a solution.
